Environmental Roles and Responsibilities

All members of staff have a responsibility for their actions and the following impact on the companies identified environmental risks.

All staff have responsibilities to consider the environmental impact of the company, cooperate in the improvement programmes and maximise recycling and minimise the use of energy and other resources.

Specific responsibilities have been assigned to certain key individuals within the Organisation for ensuring that the Management System operates effectively.

The main system responsibilities have been assigned as follows:-

CEO – Tony Killeen (or nominated person(s))

The CEO, duly supported on a day-to-day basis by the Managing Director, is responsible for the overall arrangements and for ensuring that the company's operations are executed at all times in such a manner as to ensure, so far as is reasonably practicable, the reduction of the environmental impact of the business.

In particular the CEO will:

- Ensure there is an effective environmental policy and that all employees, contractors and temporary workers are made aware of their individual responsibility.
- To appoint a Director(s) responsible for the monitoring of the business' Environmental responsibility, namely the Strategic HSE Committee, comprising of Director of Compliance, Director of Operations and HoE&F (HSE Advisor)
- To ensure that all Directors and Managers understand and fulfil their responsibilities with regard to monitoring of the business' Environmental responsibility.
- Arrange for funds and facilities to meet the requirements of company policy and legislation.
- Make provision for adequate and appropriate training to be given to all employees.
- To ensure that notification and reporting procedures to the relevant statutory authorities are carried out.

Directors

Have the responsibility to:

- Provide Environmental direction and focus as applicable to the company's business
- Ensure that adequate resources of personnel and equipment are provided in a safe and secure working environment, to achieve business and environmental objectives whilst minimising the impact on the environment
- Ensure periodical internal audits of environmental management in their areas of responsibility are carried out.
- Conduct management reviews of Environmental Responsibility in line with requirements set out in the BMS system and identify any required remedial actions or actions to improve the performance of the system
- Review staff roles and responsibilities and personal development needs in respect of Environmental Responsibility.

Heads of Service

Each Head of Service is responsible for the environmental impact of their actions and that of all personnel under their authority, including others who may be affected by the company's activities.

In particular they will:

- Understand and implement the company environmental policy.
- Appreciate the responsibilities of personnel under their authority and ensure that each employee knows their responsibility and are equipped to play their part.
- Ensure that all new employees in the company are provided with a copy of the policy statement, receive such induction training as may be laid down in procedures and understand their impact on the environment
- Set a personal example for environmental responsibility

Head of Estates and Facilities

- The HoE&F is responsible for his personal safety and that of all personnel under his authority, including others who may be affected by the company's activities.
- Ensure accident, incident and safety concern reporting procedures are understood and implemented. Assist with investigations where appropriate
- Reprimand any employee for failing to discharge their environmental responsibilities.
- Perform the role in addition to being Company Health, Safety, and Environment Adviser and Trainer.
- Ensure existing and new processes/procedures are developed in line with ISO14001/27001/45001 & company requirements via the management review meetings
- Ensure staff are developed to apply the processes/procedures appropriate to their own responsibilities
- Consult with staff where problems with operation of any process/procedure are identified along with appropriate action required.
- Ensure external assessor/awarding body audits are arranged and clarify requirements and respond to internal or external audit requirements.
- Set a personal example for environmental responsibility.

conformances are reviewed by senior management and that corrective actions are taken.

- Keep up to date with changes in current legislation and to bring to the attention of the board and HSE Committee responsible for environment any relevant new legislation.
- Attend such courses/seminars run by external sources to enable accurate interpretation of legislation to enable implementation within the organisation.
- Immediately contact the Facilities Management or Director(s) responsible for environment if situations are found, that in the opinion of the HSE, require immediate rectification or the stopping of any operation.
- To notify the Facilities Management or Director(s) responsible for Environment if the corrective action agreed after any workplace inspection is not implemented by the arranged date.
- To highlight areas where training/certification is required to meet the standards imposed by Legislation, Approved Codes of Practice, or Environmental Agency guidance
- Is responsible for identifying training needs and for ensuring that training is sourced or provided internally to satisfy the training needs.
- Developing and Maintaining the Legal Register and Environmental Aspects Register and advising management on any changes that affect the information contained therein.

Health, Safety and Environmental (HSE) Advisor and Trainer

The primary role of the HSE is to advise the Directors and Managers on all safety, health, welfare and Environment matters to ensure the Company complies with its statutory obligations.

The HSE is designated responsibility by the board, and is responsible for environment to control and update relevant environmental documentation and to ensure that all Departments operate to the procedures and instructions contained there:-

In particular the HSE will:

- Have overall responsibility for ensuring that the records and record management system used within allpay are included in the environmental management system and that the procedures are followed at all times.
- Have overall responsibility for ensuring that the environmental Management System is regularly audited and that any non-

Managers

Managers are responsible for:

- Ensuring that all staff under their control are fully aware of their requirements and responsibilities under allpay's Environmental Policy.
- Ensuring that all employees under their control are trained and competent to carry out their work in a environmentally friendly manner; are fully aware of known hazards and risks to the environment, and that the necessary precautions in place.
- Ensuring that all waste control and recycling guidelines are followed and that the use of energy and resources are kept to a minimum
- Ensuring that individuals clean as they go and good housekeeping is maintained at all times.

- Ensuring that any defects concerning environment are rectified without delay.
- Appraise, assess, discuss and action environmental matters with relevant personnel.
- Ensuring effective liaison with all departments on the operation and development of environmental management and control within allpay.

Assistant Managers / Co-ordinators / Team Leaders

Whilst the Director and Managers are available to advise on matters regarding Environmental responsibility, this does not in any way detract from the Supervisor's primary Environmental responsibility within their section or department and ongoing environmental management.

Therefore, the Supervisor is responsible for:-

- Ensuring that all staff under their control are fully aware of their requirements and responsibilities under the Company's Environmental Policy.
- Undertaking environmental Inspections, therefore ensuring that all necessary preventive and/or corrective measures are being implemented.
- Ensuring that all employees under their control are trained and competent to carry out their work in a safe manner; are fully aware of known hazards and risks to health & safety and the environment, and that the necessary precautions in place.
- Ensuring that all waste control and recycling guidelines are followed and that the use of energy and resources are kept to a minimum
- Ensuring that any instructions given to employees take full account of the employee(s) individual capabilities and their environmental responsibilities.
- Ensuring that adequate supervision is available at all times, particularly where young or inexperienced workers are concerned.
- Ensuring that individuals clean as they go and good housekeeping is maintained at all times.
- Appraise, assess, discuss and action environmental matters with relevant personnel.

In accordance with Allpay's Environmental Policy, all employees have an individual responsibility and duty for the following:-

Making themselves familiar with, and conforming with, allpay's environmental policies at all times.

Follow all guidelines and instructions on recycling, waste management and effective energy use and resource usage.

Wearing appropriate safety or protective equipment, personal footwear or clothing and using appropriate safety devices, as specified, at all times.

Make suggestions to improve environmental risks within the Company to the Manager.

Ensure that a good level of housekeeping at and around their workstation is maintained at all times

HSE Forum Responsibilities

- Review the status of the Company's environmental, health and safety policies and performance, including processes to ensure compliance with applicable laws and regulations.
- Review and provide input to the Company on the management of current and emerging environmental, health and safety issues.
- Reporting periodically to the Board of Directors on environmental, health and safety matters affecting the Company.
- Review the Company's progress on sustainable development.
- Monitor the adequacy of health, safety and environmental communication, publicity and training and development in support of company health, safety and environmental policy.
- Monitor the effectiveness of health, safety and environmental management and compliance with Company health, safety and environmental policy through consideration of reports and statistics relating to health, safety and environmental concerns.

Employees' Responsibilities
